## **INTRODUCTION**

This Emergency Plan has been compiled by Upton Magna Parish Council so that, in the event of an emergency occurring in the parish which affects, or has the potential to affect, the parish population, there is a clear plan of action to enlist local people to help others in the community. This includes a list of contacts should residents require help.

Emergencies can occur with little or no warning and can be caused by many different factors. These include natural disasters such as flooding and severe weather, failure of power or water supplies, transport accidents and terrorism.

This plan is intended to provide a self-help response for when the normal response by the Emergency Services and Shropshire Council is delayed or unable to provide the normal level of service because of the scope or nature of the emergency.

However, it should always be remembered that this plan is not designed to replace the need for professional assistance. In case of emergency, where there is immediate risk to life or property, 999 should be called and the appropriate emergency service requested. In the majority of emergencies, the police or the Fire and Rescue services will be the first on the scene and will be responsible for operational control.

As local knowledge is an invaluable resource, throughout the emergency, the Parish Council will try, as far as possible within the constraints of the situation, to provide information for the emergency services and Shropshire Council (if they are involved). It will also act as a source of information and advice for parishioners.

Finally, it is important to state that anyone listed within the Community Emergency Plan, or anyone who offers and provides help on activation of the plan is:

- A volunteer
- Acting as a member of the public
- Are no more or no less liable than at any other time
- Have no public liability insurance

## **PROCEDURE**

Any parishioner aware that an emergency has occurred should call the emergency services at once. The procedure given in this plan will apply to any emergency that cannot be immediately dealt with by those emergency services.

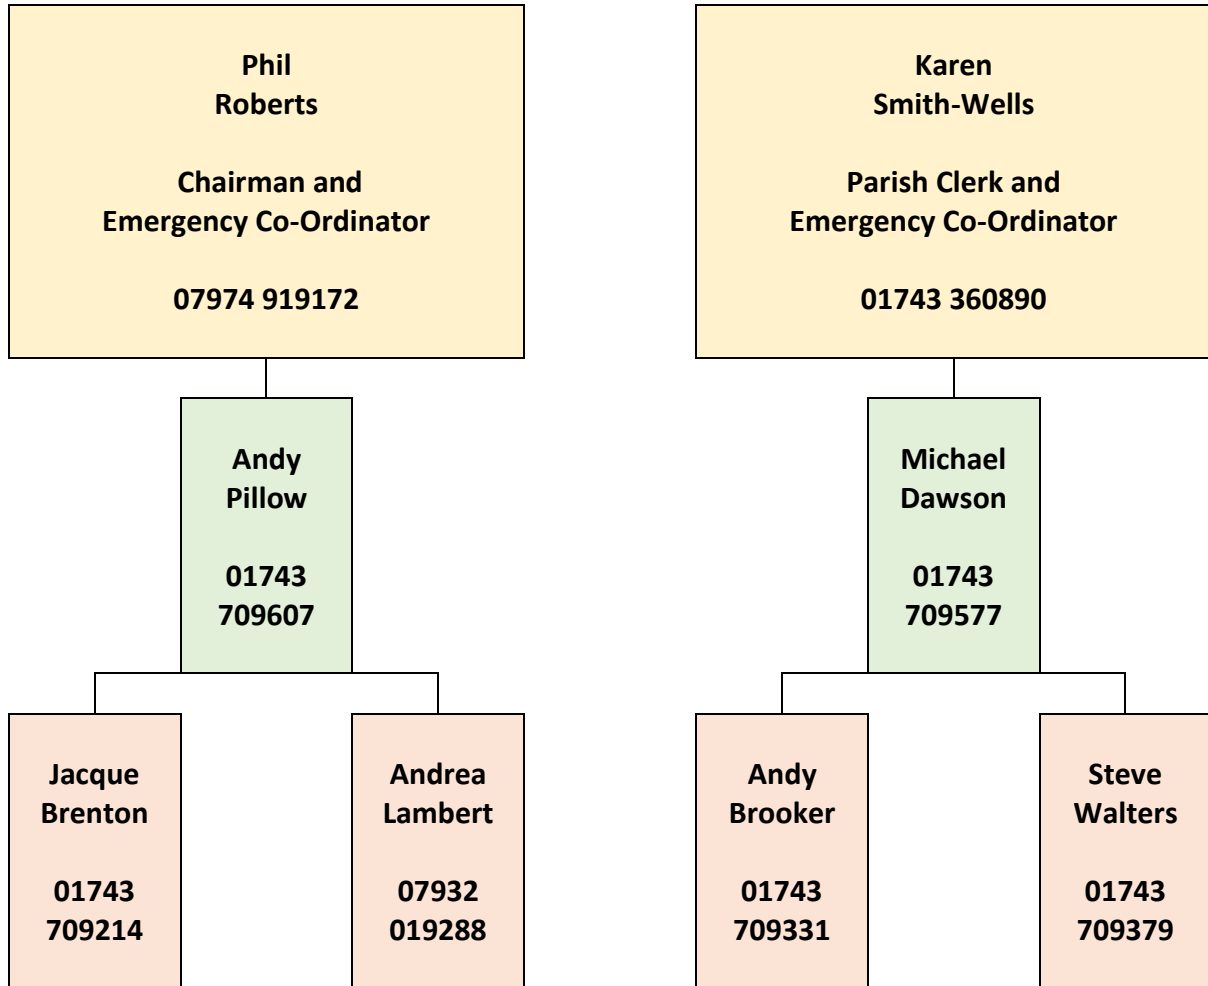

Where an emergency has occurred (or may occur in the very near future i.e. heavy snowfall, high winds), a parishioner should contact either of the Parish Council Emergency Coordinators shown on Appendix A ("Telephone Tree"). They should give as full an account of the emergency as they can, including the exact location.

The Parish Council Emergency Co-ordinator who has been contacted will immediately contact the other Parish Councillors using the "Telephone Tree" as a guide.

The Parish Council will:

- Immediately call a meeting at Upton Magna Village Hall of available Parish Councillors, electing a Chairperson if the current Chairperson is unavailable and using Appendix B "Agenda".
- Establish and maintain a communications link with Shropshire Council
- Comply with the advice given by Shropshire Council and respond with information where requested
- Provide information for parishioners, where available
- In the event of the parish becoming isolated, co-ordinate the effort to sustain the local community
- Maintain a written log of significant events and decisions (and the reasoning behind them) made by the Parish Council
- When the emergency has concluded, inform Shropshire Council that the Parish Council emergency arrangements have ceased and stand down
- At a later date, meet to discuss the Parish Council's handling of the event and application of the Emergency Plan Procedure and agree on any improvements or amendments
